S E R V E W I T H C I T R U S

Hi,

We are the world's largest producer of color-changing vodka cocktails and our goal is to inspire the entrepreneurial spirit within U – one person, one cocktail, one community at a time.

Our Vodka is a unique, sugar-free, corn based vodka that's been infused with tea flowers.

Unicorn offers more than just soft floral-and-citrus flavored vodka. It's a new drinking experience, that is guaranteed to stand out from the crowd.
